

Inventory & POS Management System

Inventory & POS Management System Advance is a web application that allows you to manage your invoicing and inventory on site. Update your stock information, make purchases and view sales data from anywhere whether in the office, at home, in the warehouse, or on the go. All you need to access this device with internet connection.

WEB-BASED OR IPAD POS

Shorian POS System works on iPad, Mac or PC and syncs in the cloud so you can use one platform or all three.

System works Online/Offline

Continue selling even when the internet goes down, System will automatically resync your sales when you're back online.

Fast staff training

Shorian POS System is incredibly intuitive and easy to use. Train your staff in minutes and get them up and selling in no time.

DISCOUNTS AND NOTES

Add discounts and notes to specific line items or to the entire sale. Notes will appear on your customers' receipts.

Custom Receipts

Customize receipts with your logo and website. Choose whether to email or print receipts after a sale.

Returns, refunds & store credits

Refund past orders to store credit, gift cards, or back to the customer using the original payment method.

Cash management

Track all cash movements from cash float to register closure, and reduce errors, theft and discrepancies.

User accounts

Create individual staff accounts and track sales. Easily manage user permissions to restrict sensitive information.

Accept credit and debit cards

Securely accept credit and debit cards with leading payment processors around the world.

Custom payment types

Create custom buttons to accept cash, credit, debit, check, gift cards or any other payment type you need.

Gift cards

Increase your revenue and reduce your processing costs by issuing custom gift cards that can be used in-store or online.

Variants and composites

Define multiple product sizes, colors or materials or bundle products together as in gift baskets.

Barcodes and labels

Import existing barcodes or create and print new ones. Effortlessly add products to sales, purchase orders or stock-takes.

Central product catalog

Manage a central product catalog and sync your products across all your channels to eliminate errors and extra data entry.

Pricing and promotions

Manage pricing, discounts and markups effortlessly across all your products, outlets and customer groups.

Customizable taxes

Simplify tax handling and customize your taxes for different cities, countries, states, or even different products or outlets.

Stock orders

Always have your top-selling products in stock with automated stock orders and customizable reorder points.

Inventory counts

Complete full or partial inventory counts, and speed things up by performing multiple counts at the same time.

Inventory control

See stock on hand, low stock information and inventory levels to help you make better decisions about your inventory.

Stock transfers

Easily transfer items from one location to another, and check product levels across your stores with ease.

Customizable reports

Build your own reports and quickly drill into your data to see how your store, your products and your staff are performing.

Product and sales reports

Report on sales by product, brand, supplier, tag, and much more to easily identify trends and make the best decisions.

Inventory reports

Manage your inventory more effectively by keeping an eye on inventory levels, low stock information and stock on hand.

Employee performance

Set daily, weekly and monthly sales targets for each of your staff, and see how they are performing against those objectives.

End of day reports

Review daily register closure summaries and sales history reports, confirm payments, and easily check for discrepancies.

Export your reports

Export your data to your preferred spreadsheet tool for in-depth analysis or send your reports to your accountant.

Accounting integrations

Sync your store data with Xero or Quickbooks Online to make for a happy life and a happy accountant.

Add users

Add more users to Shorian POS System at no extra cost as your team grows, and manage their permissions however you want.

Add registers

Do you have busier periods during the year? Easily add an extra register when you need one.

Complete retail platform

Run your entire business with Shorian POS System, no matter how complex your operations are or how many locations you have.

Synchronized data

Find all your information in one place, from your product catalog, to your inventory, customers and reporting.

Mobile friendly

Shorian POS System designs optimized to look great on any device or screen size.
